California Blaster's License Training

Do you work with explosives in California? You probably need a Blaster's License. We can help!

Our CA Blaster's License Preparation Courses include:

- Overview of the ATF, state and local regulations pertaining to CA blasters
- In-depth explanation of the DIR General Safety Orders and terminology
- Explosives storage and transportation fundamentals
- Specific modules geared towards each part of the CAL-OSHA DIR test
- Detailed information on each of the initiation systems covered in the exams
- Knowledge checks for each module
- Available as a 1-day or 2-day course, with live range time and safe handling training offered at our Barstow facility as an add-on.
- In-person or remote options.
- Have a group? We can come to you!

Target audience: Blasters, Public Safety and other professionals working with explosives in California

Cost: Starting at \$500/person. Includes 8-hour certificate.
